COMPREHENSIVE OFFICE SYSTEMS

CAD Space Planning & Custom

design

Experienced interior designers will provide you with problem-solving ideas on the most efficient use of your existing space and recommending the workstations that best meet the individual needs of your workers.

You will receive a color coded plan view drawing to scale, a three-dimensional view of a typical workstation and a bill of materials listing all parts required and their cost. Our quality engineered system will be professionally installed according to drawing specifications.

This system meets applicable industry specifications set by:

- Class A Rating - NFPA Code 101-Sec. 6-2 per ANSI E84 Fire Test.
- Class I & II Rating - Federal Regulation on Safety Glazing 16 CPSC-CFR 1201 per ANSI Z97.1-1966/72.
- UL listed panels per Underwriters Laboratories 1286 Standard.
- Accepted BIFMA panel system tests per ANSI X5.6-1986.
- Acoustic Values: NRC-.90 (Noise Reduction Coefficient) per ASTM C 423-84a/STC-29 (Sound Transmission Class) per ASTM E 413-73.

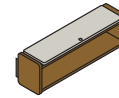

Our paper management system allows documents, files and binders of all shapes and sizes to be placed out of the way and yet remain easily accessible.

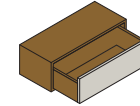

efficient

Durable modular panel systems are beautifully engineered for use as individual units or a completely integrated office. The system provides valuable designed-in flexibility for easy reconfiguration as employee functions and needs change over time. Such versatility enhances the already attractive cost-efficiencies of the system. Ease of installation adds a practical plus. In addition, the system is designed with ergonomic consideration for the way the human body moves, turns, stands and sits, helping decrease worker fatigue and increase productivity.

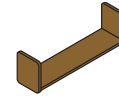

With its wide options and easy accessibility, panel solutions adjusts to meet special needs identified in the ADA.

Our Panel Systems have a long-standing reputation for providing superior product quality, customer service and genuine value. All our products are designed for long-life performance and backed by our exclusive warranty.

features

Pop-up receptacle grommets provide for easy access at worksurface level.

Power management components include top feed poles, vertical cable/power raceway.

An adjustable tilt worksurface provides the ultimate in comfort positioning.

Slotted side rails provide adjustability in 1" increments to fit every requirement.

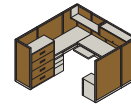

8-wire, 4-circuit electrical system with a dedicated ground and snap-together installation in either a 4" or 6" raceway for greater capacity.

Glazed curved and open panels add beauty and versatility without excessive cost.

Three trim color choices coordinate with a variety of fabrics and laminates to create a unique design for your workplace.

Consider the

possibilities

A Modular Panel System makes it easy to optimize available space for any number of applications. A wide number of components offered in a variety of dimensions provide workplace solutions for even high-density offices with shifting uses. Whether the need is for computer workstations, storage, or executive offices... whatever the task, our components are designed for spatial efficiency.

Representative workstations

Pedestals and lateral files with standard locks are available for concentrated storage.

Open shelving can be positioned at varying heights or stacked on panels to suit individual needs for storage or display.

Precision design, engineering and production of all components assures a high level of quality. Attention to details in turn yields a number of distinctive features and benefits.

Articulating keyboard and wrist rest provide flexibility and support for keyboards.

The difference is in the

details

Solutions combines a full range of interchangeable components and coordinates for creating effective working environments; quick to install and easy to reconfigure.
